EXCHANGE COLUMN

Definite student projects are already under way in a good many colleges all across the country as a result of the Evanston Interdenominational Student Conference which met during the Christmas holidays. Reports of these projects were brought from every section of the United States to the first meeting of the Continuation Committee which recently was held in Columbus, Ohio.

Many of these student-directed undertakings related very definitely to the demand for church unity which was so persistently expressed at Evanston. Thus at Northwestern University the Young People's Societies in the Evanston churches are moving more closely together in a common use of the project method.

Recently a representative committee outlined an experimental program on the question, "What is your aim in life?" Students from various denominations undertook a wide survey of student and adult leaders, from Al Jolson down the line, to discover, if possible, a guide to their own thinking. The sessions at which the answers were discussed were livelier and more to the point than any meetings within the memory of these church groups.

A similar project is under way at the University of Michigan. A committee representative of all the Young People's Societies of Ann Arbor has worked out a common program. The first question that is to be raised by these groups is "How wet is the University of Michigan?" Student commissions are making a survey of Ann Arbor in an effort to gather data on which to base a discussion for that night.

A project of another sort is that at Ohio University at Athens, Ohio, where in a coal mining community, students, with the backing of the churches have already set about the job of cooperating with the mining groups in night and week-end classes.

All the way from Massachusetts to Oregon reports have come of the wide spread and increasing interest in the proposals for projects of various sorts which were outlined at Evanston.

The Continuation Committee is helping to start five student commissions to head up project work in these various fields. Each of these commissions, although composed of students, will have the help of an expert adviser. The first commission is to undertake the investigation of the educational processes of the churches, particularly with reference to the way in which the facts are being broadcast, of how the church is already, in terms of definite cases, helping to build a new social order. The material for this survey will be gathered by students. The second commission is studying ways and means for church student cooperation and relating itself to all the union projects already undertaken by the students themselves. There will be further commissions on students, and international relationships; church leadership in student communities, etc.

The Continuation Committee is seeking to correlate and conserve

"FINER WOMANHOOD" WEEK

The Zeta Phi Beta Sorority was organized at Howard University some years ago and has extended to fifteen chapters, located throughout the United States.

The general officers of the sorority are Miss Evelyn Lewis, president; Miss Emma Askew, publicity editor, and Lucille Jackson-Wilson, treasurer.

It was under the auspices of this sorority that the "Finer Womanhood Week" was held. This is an event to which the students look forward with great eagerness every year. Recently, local members of the above named sorority held exercises in observance of the event. At the ceremonies in Rankin Memorial Chapel the following program was rendered: Violin solo, Miss Mildred Napeau; history of sorority, Miss Evelyn Lewis; address, Miss Edyth Cooper; vocal solo, Miss Anola Miller. Mrs. Georgia Johnson, president of Zeta Beta Chapter, presided at the meeting.

OMEGA PSI PHI TO HOLD MEMORIAL SERVICES FOR COL. CHAS. YOUNG

To Be Held in University Chapel

The Omega Psi Phi Fraternity, the local chapter, will hold the memorial services for the late Col. Chas. Young, who was a very active member of said organization. It has been the custom for every chapter all over the country to hold services for him sometime during the early part of March, each year. Services this year will be held in the university Rankin Memorial Chapel, Sunday evening at 8:00 o'clock.

An elaborate program has been arranged in which Capt. A. C. Newman, Professor Stuart B. Nelson, and Capt. Atwood will participate. Mr. Alston Burleigh will recite. Appropriate music will be rendered.

Invitations have been sent to prominent people of the city, including President and Mrs. Coolidge and other high government officials.

SUMMER MEDICAL COURSES AT HOWARD UNIVERSITY

Howard University, the Medical College of which has been unable to accommodate all of the applicants for training in the science and practice of medicine, is planning this year to conduct extensive post-graduate courses in medicine and surgery during the summer session for six weeks immediately following commencement. The work will be done in conjunction with the School of Public Health and will be a boon to graduates of Howard and other medical schools who desire special training before taking state board examinations, entering hospitals or beginning practice.

these various projects. Communications which relate directly or indirectly to this work can be sent to the Interdenominational Student Conference, 150 Fifth Avenue, New York, N. Y.

THE H. U. ENGINEERING SOCIETY

J. L. PENN. Correspondent

The work of the Howard University Engineering Society, like the work of any other technical organization, is not brought to the attention of the student body at large as much as it deserves.

Since its organization, the society has striven to be of material benefit to the student in engineering and architecture. Upon its organization, the society conceived the plan that it could best serve its purpose by presenting periodically lectures and moving pictures stressing the different phases of industry. Recently, under the direction of Messrs. Welch and Logwood of the Senior Electrical Engineering class, instruction in the use of the "Slide Rule" was begun. The slide rule is an indispensable instrument to the engineer and architect, and in fact, to any who have mathematical calculations of any extent to perform.

The society extends to all the student body a cordial invitation to its lectures and moving pictures, and those who are interested in the use of the slide rule are at liberty to join the slide rule class which meets each Tuesday noon in the Building of Applied Science.

THE GERMAN CLUB

The German Club has just held its usual monthly meeting, at which time the resignation of Miss Louise Johnson, who was forced to give up her position as secretary of the club because of lack of time, was accepted. Miss Louise Lashley was elected as the new secretary. The members' attention then was called to the annual Spring play. The president urged the members to take part in the try-outs which are to be held soon. James Vance, who had charge of last year's play and who was the composer of it, has charge of this year's play also. It is expected that the Spring play of 1926 will be met with as much enthusiasm and success as last year's. The following program was then rendered. Piano solo, Miss Nancy Bullock, and a German song by members of the class.

THE PENNSYLVANIA CLUB

Augmented by the presence of several new members the Pennsylvania Club held a very interesting and entertaining meeting.

After the business of the meeting had been disposed of the applicants for membership were introduced. They were Miss Edith Marshall, Miss Elizabeth Forrest, Miss Isabelle Fairfax, Miss Clara DeShields, Mr. James G. Tyson, Mr. James Jones, Mr. Cassell Johnson, and Mr. Milton Luck, Jr.

Miss Marshall, a member of last year's club, in an interesting short talk, spoke of the activities of the club and promised her cooperation. Mr. Tyson aroused considerable interest and enthusiasm by his talk on the possibilities of the club as a factor in school life.

DELTA SIGMA CHI MEETS AT HOWARD

Delta Sigma Chi National Negro Debating Society met with the Kappa Sigma Chapter of Howard University, in annual session Saturday, March 6, 1926.

Delta Rho Chapter of Lincoln University, was represented by Messrs. G. W. Goodman and R. H. Hill, Kappa Gamma Chi Chapter of Virginia Union University by Messrs. W. H. Payne and W. R. Clayton, and Kappa Sigma Chapter of Howard University by Messrs. Theodore R. George and William E. Allen, Jr.

Necessary amendments were made to the Constitution of the national organization and plans were formulated for enlarging the scope and work of the fraternity.

By unanimous consent of the charter chapters, invitations are to be extended to three of the several A-class universities or colleges of our group who made informal application for membership, with the understanding that others will receive such invitations as the national organization deems it expedient.

Problems of the subordinate chapters were discussed and plans formulated for their solution. The problems of Kappa Gamma Chi, Virginia Union University, received special attention. Messrs. W. H. Payne and W. R. Clayton were authorized Delta Sigma Chi to reorganize chapter in strict conformity to Constitution of the National organization. They were given letters of authorization to the officials of Virginia Union University and the chapter.

Under the Constitution, Key-members and Chapter-members of the entertaining chapter were invited to participate in the deliberations on questions affecting all phases of the work, but all matters requiring vote were decided by two votes cast for each chapter represented.

The freshmen class of the college extended special invitations to the delegates for their prom, Friday night, and the girls of the junior class entertained them Saturday evening in the Assembly Room at Miner Hall.

Lincoln University is to entertain the fraternity next year.

Officers elected were: General President, Theodore R. George, Howard University, Washington, D. C.; General Vice-President, W. H. Payne, Virginia Union University, Richmond, Va.; General Secretary-Treasurer, William E. Allen, Jr., Howard University, Washington, D. C.; General Assistant Secretary-Treasurer, W. R. Clayton, Virginia Union University, Richmond, Va.

Key-members and Chapter-members of Howard University in attendance were: Damon P. Young, Sam S. Robinson, Emil Bussey, William E. Spencer, M. Plant, Clifton L. Banks, U. C. Nebleet, H. D. Espy, S. Douglass.

SCANDAL

There are always a few in college who lose their firm grip on the straps of common sense and decency and fall in the whirl pool of chances; this results not only in disgrace but often ruins their entire career. When these things occur there is always the question placing the blame. The monotonous day-in-and-day-out drag of college life is apt to lead one to engage in many unconventional activities in their hungered search for change and excitement. However, there is such a thing as carrying it a little too far. The more critical person has an extensive vocabulary of unpleasant names to pour out on the young man who stays out all night, but it would take a powerful vocabulary to express the thoughts and suspicions stimulated when we hear of young ladies spending the night away from home unchaperoned.

The recent scandal that is now on the lips of most every student should be sufficient warning to the other students on and off the Hill. We are taking some desperate chances in carrying our social life too far. Perhaps we need some sort of a check, like this recent one to awake us to the extent of our straying from the straight and narrow path.

Now it is a problem of placing the responsibility for such social irregularities. It is the opinion of many that we are at fault; that they set the social standards. This might be true in theory but in practical life it seems that men adjust themselves according to the type of female with whom they associate. The average fellow goes just as far as the female permits him to and checks up on his behavior only when he becomes conscious of indignation on her part. If she doesn't like him to smoke, he will stop smoking; if she doesn't like slang he will stop using it. But on the other hand, if she encourages and admires the beast in man he gladly permits his beast instinct to predominate. There is no doubt that there are many things that women do to please men, such as dress, bobbed hair, and love letters, but for the more intimate social relationships the average man adjusts himself to the type and social standards of the girl he admires.

But coming back to the recent student scandal it is likely that the ex-

tension of penalties to men will make them more reluctant about "going" as far as the girls will permit and awake them to their responsibilities for the protection of womanhood.

To the Editor:

I am quite sure that every man who lives in Clark Hall should appreciate a "surrounding of cleanliness," and I think the majority of them do. I think the matter which some writer published on the editorial page of the "Hilltop" in respect to keeping Clark Hall clean will do the cause more harm than good. There is a way to do everything. This article was not written with the right incentive, and it is neither just nor consistent. There is more than the janitor to be taken into consideration when we begin to sum the ought-to-be sanitary conditions in Clark Hall. Speaking personally, I would say that we, the men who live in Clark Hall, have a great part to play in this matter of cleanliness.

In regards to the "careless and unthoughtful" writer's points of improvement, let us just look them over. "First, the lavatories compel more consideration." This is very true—but consideration from whom? Both students and janitor owe the matter due consideration. If the lavatory is cleaned once a day, then those who use the lavatory should keep it clean the rest of the day. "Secondly, The halls are usually filled with paper." This is not without a degree of truth. I have seen the "supposed" writer, himself, sweep his room, and did he take it up and carry it to the rubbish can? No. He simply swept it right outside of his room into the hall, and there it remained. Now, if some of us are going to do this, even if the hall has just been swept, it will never be clear. Let the janitor do his part and likewise we surely must cooperate in doing our part.

Now, since the janitor has been given a "swift kick," in print, by the writer of the article of last week, I appeal to us who live in Clark Hall to be sure that we perform well our duty. As I have said before, I believe that if the place is cleaned once a day, that the men who live in it should do their level best to keep it clean throughout the day. I request, therefore, that you publish this letter in the same conspicuous position on your editorial page as you did in the case of what was published last week.

"A constant reader and well wisher of the 'Hilltop'."

THE FREDERICK DOUGLASS ORATORICAL CONTEST

The Department of English at Howard has initiated an annual Oratorical Contest under the direction of M. F. Peters, Professor of Public Speaking.

Below are some of the rules governing this contest:

1. The Frederick Douglass Oratorical Contest is open to all undergraduates above the Freshman Class in the College of Liberal Arts, the College of Education, the College of Applied Science and the School of Music.

2. A preliminary contest shall be held in Rankin Memorial Chapel on March 22 at 7:30 p. m.

3. The Orations delivered in the preliminary contest shall be judged in thought expression and delivery.

The authors of the first six ranking orations, so judged, shall compete in the Grand Oratorical Contest, which will be held in Rankin Memorial Chapel April 22 at 8 p. m.

4. The speakers in the final contest shall attend all rehearsals.

5. The speaker winning first place in the final contest shall submit for permanent record the following items: His oration in typewritten form, a photograph of himself and an autographical sketch, including the date and place of his birth and the schools of his primary and secondary education.

6. In all cases not covered by these conditions the participants shall submit themselves to the direction of those in charge of the contest.

Only twenty-three orations have been submitted to date. These rules are printed on the bulletin board in the main building, but since such a few responded to the stimulus they are given in brief. The committee met on Monday the 8th to complete arrangements for judges.

UNIVERSITY BARBER SHOP OPENS

Very Neat Work Accurately and Satisfactorily Done

The very strange cognomen of University Barbers graced the hardwood quintet which took the floor Saturday in the preliminary game against the Freshman class team of the University.

Captain Jones opened shop according to schedule and the newcomers to the city, under the leadership of Captain Johnson all seemed anxious to part with their hirsute adornment. The Barbers early showed their familiarity with the technique of the art of which they have boasted to be powerful exponents. A lead gained in the opening frame was never lost and despite all the struggles of the minors in the chair, the operation was continued until pronounced sufficient and well done. There was one recalcitrant youngster in the person of Woods, who came in rather late for the severance of his hair and who seemed loath to part with it. By means of various contortions, and elusive tactics he came very near saving himself and his team, but the Barbers frustrated his attempts at times when they would have meant most and he was compelled to accept the fate, long written in the BOOK. Tyson was treated rather roughly at times, due to his do-or-die attitude. Freshmen seem even yet unwilling to realize that their very name precludes any hope of rising to heights greater than Sophomores. Next year it will be a different tale—Paenies. The cash register in the barber shop showed cash receipts of 17 for the day's work and cash expenditures of 15. Next profit for the day, 2. Of course that is as good as 200 on these kind of books.

SICK LIST

Maurice Moore, Ward 10, Freedmen's Hospital.

Violet Harris is greatly improved. We are glad to see George Johnson and Alton Berry back after their seri-illness.

Son: Shifting gears on a lolly pop.
Mother: How did you lose your teeth, son?

THE STUDENT COUNCIL COLUMN

In the last issue of "The Hilltop" under the Student Council column, several of the projects undertaken by this body were named. Among these was the extension of student interests beyond the borders of the campus. This opportunity is taken of acquainting the students with a very forward step in this direction.

The World Court Conference held at Princeton, December 11 and 12 had a two-fold object: to formulate mature undergraduate opinion in favor of the entrance of the United States into the World Court; and, to create a permanent organization of college students. The first was accomplished and the second is in the making.

The delegates to the Conference voted to adopt a temporary constitution making it possible to put the idea on trial for one year. If at the expiration of that time it was found that the students of America were behind the proposition then the organization would make a permanent one and steps would be taken to link it up with similar movements in other countries.

It is the purpose of this federation to cooperate in determining the most vital problems which confront the students of America in discovering the ways to meet them. More definitely, the task of each committee (on the campus) should be to make a survey of the problems facing its particular college and the methods which seem best fitted to solve them. . . . This action provides thus for the first time a means for conducting an impartial truly national assay of the tasks that face the students of the nation, which have been found to succeed in particular instances, and in uniting the student opinion of the nation to eradicate the evils which may be found to exist. . . .

Scholarships under the auspices of the National Student Federation of America have been suggested, whereby a student would leave college at the beginning of his junior year and return as a senior. A more immediate and less far reaching is the establishment of a system of cards of introduction to local European student unions, to be issued by Confederation Internationales des Etudiants through the Federation to students traveling in Europe during the summer.

This is the Federation to the executive committee of which Miss Mabel Holloway was elected. We remember only too well the opposition that had to be overcome in order that she might retain the place that she had won. Now it is up to students of Howard to give this body its wholehearted support; to see to it that representatives are sent to every conference irregardless of where that conference is held for a victory avails nothing if it is not followed up.

An opportunity to participate in a national movement has been given; a path to greater and better understanding among students has been opened. A trail has been blazed. Howard must follow!

Tramp: I've asked for money, begged for money, an' cried for money, lady.

Lady: Have you tried working for money?

Tramp: No, lady; I'm doin' the alphabet, an' I 'aven't got to "w" yet.

SPORTS

It is said that wonders can be done ever night. If there ever was a wonder performed it was done when that galaxy of satellites heeded to the first call for track work. The new gymnasium is now completed which is circumnavigated by a modern cork oval. The out-door track is nearly completed and when the entire squad takes the field it will be more advanced than in previous years.

The coaches confided to the writer a few days ago that they expect to have one of the toughest jobs they ever had in selecting the men who will start for the 1926 Penn Relay Carnival. When you have men like Warring, Hill, Bright, Jason, Williams, Langston, Payne, and to say naught of the captain fighting for a birth, it is no easy job, then concluded. The coaches make no comment in predicting what this year will bring forth.

The two new flashes, Langston and Williams, are blessed with every essential and are endowed with the potentialities which make young athletes famous.

The initial workout consisted of the usual grind, setting up exercises, a few jogs around the track and some starts.

"Nick," Parker, and the Pendleton brothers are not saying a word, but are instilling into the aspiring distant men some of the tracks that have made them famous.

The field representatives are in abundance. In this human avalanche

of stars that descended down into the "gym" a few days ago, I can see age-old records which have hung for many years, fastly falling before them like the mist before the morning sun.

"Andy," in his day, had Young under his tutelage and has imparted to him the secret of the hammer and javelin. Whitted and Smith have watched with non-failing eyes DeHart Hubbard perform at the hurdles and broad jump.

The writer predicts, with the present facilities and the available material, when the year's history will have been written, Howard will not be found wanting.

R. C. JONES, Capt. '26.

HUBBARD SETS NEW RECORD

Just as the time when many thought DeHart Hubbard was going back the great colored athlete uncovered a sensational performance which has again brought him into the spotlight of the athletic world.

The world's record which has stood for 18 years was broken in the seventh annual running of the American Legion track games in Boston recently, when Hubbard sprinted 65 yards in 6 4-5 seconds. The old mark was seven seconds.

Hubbard, holder of the world's record in the running broad jump, has added another jewel to his athletic crown.

NATIONAL STUDENT COUNCIL AT HOWARD

On Thursday, 4th inst., at 7:30 in Library Hall, the first meeting of a local branch of the National Student Council was held. Invitations were sent out to members of the Episcopal Church at Howard to attend this meeting and help place this branch on a permanent basis.

Mr. E. A. McLaughlin acted as chairman and was instrumental in calling this meeting.

Professor Tunnell gave an interesting talk on the work of the Student Council at other institutions and expressed the hope that the group would "leaven" the student body and do everything for the uplift of morals at Howard.

Others who are interested in this new movement for spiritual and moral uplift are urged to affiliate themselves with this new organization.

A VISION IN DRAMA

Set your white stage with its flare of many a white light,
And have your many white, smooth hands there
To move the slanting white bows across white violins;
And yet somehow from some black somewhere
I shall come to poise my drama of black skins
And hold the dark climax in the white havoc of your fright.
DUTTON FERGUSON.

A canoe is like a small boy—both behave better when paddled from the rear.

V. of Wash. Columns.

SOCIAL AND PERSONAL

Hertzel Brown, you must be more careful or Reggie will become aware that you have your teeth in his back.

Deck, why can't you be good; you just knew M. H. is in love and still you persist in teasing her lover.

Girls, beware! Eddie Muse is on the Hill. He's the guy that won the prize at Dunbar for being the handsomest boy in the class.

Perry, we don't think so much of your hangout in Cleveland Place.

Maurice Coates, the big butter and egg man.

H. T., don't you realize that it's naughty and caddish to talk about a fellow behind his back.

J. K. Smith, you last cut on French Street, and if you don't watch out, you are going to lose out on the Hill with the lady from Alabama.

Harriet, is Rio true to you? or is he treating you as you treated Julius?

F. N. L. and Austin, you had better stop skivering on your stomach.

Callie, how are you and Bob T. getting along?

H. W., why don't you stop leading the "Sweet Georgia Brown" astray?

Girls of today are only men pleasers.

Lester B., the sugar man from Louisiana.

HOWARD UNIVERSITY NEW GYMNASIUM—ARMORY BUILDING DEDICATED

The New Gymnasium - Armory Building at Howard University for which the Government has appropriated \$197,500 for the building and for the New Stadium and Athletic Field, and in connection with which the University Trustees have expended an additional \$93,693.28 was dedicated Friday, February 26th, 1926 at 3:30 o'clock. Impressive exercises were held in connection with the dedication. Honorable Hubert Work, Secretary of the Department of the Interior, and Patron Ex-Officio of Howard University, was scheduled as the principal speaker, but on account of an engagement in connection with the Convention of the Department of Superintendence of the National Education Association, now in session in Washington, was unable to attend the dedication exercises. Greetings were extended by Honorable Louis C. Crampton, Chairman of the Sub-Committee of the House Committee on Appropriations, which handles the Interior Department appropriations, under which Howard University comes; by Doctor William Mather Lewis, President of George Washington University, and Doctor Peter Guillard, who spoke for Doctor E. A. Pace, of the Catholic University of America.

Doctor J. Stanley Durkee, President of Howard University, presided. In his opening remarks, he said: "More and more are we realizing that a healthy mind in a healthy body and both dominated by a healthy soul, means life at its best. On such a foundation can be built the home, the church, the school, the state, all functioning together for training the truest type of citizen. Our American colleges and universities have long sensed this great truth. 'Tis true we have seemingly over-stressed the physical development; yet it is but seeming. The public talks much about our athletic games and contests, but the real training that helps every student, correcting physical wrongs and leading to soul health, is too little known. "With our old facilities we have accomplished much; with our new facilities, we shall change the life and thinking of the university. It will be disloyal to the new traditions of Howard for a young man or young woman to fail in physical prowess. New impetus will be given to intellectual attainments. It will be a new joy just to be alive. But when we face all this as a gift from God, and a challenge to noblest living, then the coward, the mean man, the dishonest or the unclean morally—all will be outcasts from life of real men and women, genuine sons and daughters of Howard University."

A brief historical statement of the movement which secured the New Gymnasium-Armory Building was read by Doctor Emmett J. Scott, Secretary-Treasurer of the University. The Prayer of Dedication was offered by the Right Reverend E. D. W. Jones, Bishop of the A. M. E. Zion Church. The Howard University band and the Howard University Choir rendered selections. The architect, Mr. Albert I. Cassell, and contractor and builder, Mr. W. L. Morrison, President of the W. L. Morrison Construction Company, were presented to the very large audience composed of trustees, officers, faculties, Students Alumni and friends of Howard University.

It was indicated in the historical statement with reference to the gym-

nasium - Armory - Stadium - Athletic Field project that the movement to secure such a plant was begun seventeen years ago, but only took definite form on July 1st, 1923, when an initial sum of \$40,000 was appropriated by Congress. The Gymnasium-Armory Building has been designed by the architect in the Renaissance style and harmonizes with the newer of Howard's structures, the Macmillan Park Development and the Miner Normal School, all of which are so close together that correct study and development demanded this harmony.

It is two (2) stories in height with part basement. The main floor has a main entrance of proper dignity, corridors, lobbies, offices for both male and female instructors of physical education, separate corrective gymnasium rooms for men and women, a main gymnasium room, 55x90 feet clear, with one-tenth mile cork covered running track, two practice courts, and one main basketball court, an armory room and storage and office facilities for the University R. O. F. C.

The second floor is to be devoted to the Department of Physical Education and contains a trophy room, separate offices for men and women physicians, class and examination rooms, a laboratory, and a first aid room.

The basement contains a swimming pool of standard university size, that is, twenty by sixty (20'x60') feet; an observation gallery to the pool, capable of seating some two hundred and fifty (250) persons, store rooms, and the best sanitary facilities, showers, toilets, etc., for each sex. The building is equipped in its entirety with proper gymnasium equipment, lockers, sanitary accessories, classroom and office furniture.

The Athletic Field, to the rear of the gymnasium, is located between Fifth and Sixth Streets, Northwest, and extends from a point twenty feet north of Clark Hall for a distance of six hundred and fifty feet, thus closing Fairmount and Girard Streets in this area. It will be modern in every respect, and will present the effect of a bowl. There will be provided: a football field, a quarter-mile cinder track with a 100-yard straight-away, the immediate placing of seats for 10,000 and space accommodation for a maximum of 20,000 persons. The field will be completely enclosed, and modernly equipped with drainage and adequate sanitary facilities to take care of the present and immediate future needs of the university.

In the evening at 8 o'clock the following program was offered the large number of persons who gathered to continue the celebration of the dedication event:

Overture, "Hungarian Lutspliel," Howard University Orchestra; Address, Dr. E. P. Davis, Chairman of the Board of Athletic Control; Five Minute Addresses by Dr. A. B. Jackson, University Physician, and Mr. L. L. Watson, Director, Department of Physical Education; Section, "The World is Waiting for the Sunrise," Howard University Orchestra; Five Minute Addresses by Mr. J. E. Codwell, representing young men of the University, and Miss Bernice Chism, representing young women of the college.

After the addresses mentioned above moving pictures of Howard University Campus Life, and stereoptican pictures of University buildings and grounds were shown, with the Howard Symphony Orchestra rendering selections during the course of the evening.

SOCIAL AND PERSONAL

Continued from page 3
Eaine W., it's about time you were getting a personal friend. The same applies to C. B. and D. O. W. H.

J. H. Harmon, why not pick some one your own size instead of playing the cradle?

C. J., you certainly think a lot of yourself. Does Eleanor too?

Say Tyson, she sure was intimate with those Lincoln boys, wasn't she?

"Jackie" Jameson and Mary Sullivan, you both are working hard for your mark in Anthropology. Quiet is it kept, A. A. and Grace E. are close seconds.

Evelyn Smith, we wonder why you changed your seat in Psychology. Someone sure must have put you wise. Sit in there and fight, girl.

N. Cummings is very particular about whom she dances with. Tyson will not always be at the party to ask you for the first dance.

Kid Scurvy sure wins the Corn-meal Medal. While his laundry dries, he plays the piano. Now what do you know, ole socks.

Speed, keep your weather eye open. Someone would like to camp on your trail very much; so beware ole ham.

We notice that McNeely is a frequent visitor at A. K. A. House. What's up, Mac?

Young Knowledge, you are sure some shiek these days.

It is too bad that "Bennie" R. is under restrictions. Never mind, Spring Quarter will soon be here, "Donnie," ole boy.

The "Man in the green gloves" is beating it down to a low gravity. Come in this house and shut the door.

COMICS

The modern dance is undoubtedly the much talked of back to nature movement.

Minn. Ski-V.-Mah.

Senior: How do you like my room, as a whole?

Freshman: As a hole, it's fine; as a room—not so good.

Vassar Vagabond.

Little Mabel (aged three): Mama! please don't starch my petticoats so much. So much starchiness makes the stiffness scratch my bareness.

Ad No. College Adv. No. 2-75x2 col. PON 1867

"Officer, you can't bluff me. I'm an A. B. and an A. M."

"Good! Now we'll give you the third degree."

Centre Colonel.

Reed: Whenever you speak of Virgil, it reminds me of something.

Bory: Why?

Reed: It reminds me of the race between my "pony" and the teacher's goat.
